

Our Signature Difference

See how we're changing the landscape of healthcare one success at a time.

Patient Name: Huston Pendleton

Diagnosis: Generalized Weakness after a surgical procedure inguinal hernia repair

Rehab Stay: 12/16/2016-12/22/2016

Referring Facility: Taylor Regional Hospital

Mr. Pendleton came to Summit Manor after a surgical procedure. He was quite weak. Mr. Pendleton enjoys visiting the local country store and playing Rook with his friends. He is a retired school bus driver who loves children. Mr. Pendleton will be going to stay with his son for a few weeks during the holidays. His son is a girls' basketball coach so he is very excited about attending some basketball games during his visit. He is also very excited about spending some time with his two granddaughters. We are so excited for Mr. Pendleton to enter back into the community.

"Therapy has been very good to me here." - Huston Pendleton
